Big Valley Boys Win Trophy At Stettler Tourney

The Youth League of the Stettler Hockey Association, which has been organized for the purpose of promoting hockey in the district, has just completed its first season. The boys' team, coached by Mr. J. H. Smith, has won the championship trophy by defeating the team from the town of Stettler in a final game played on Saturday night last.

The season has been a very successful one for the league, with many games being played and a large number of new players joining the ranks. The boys' team has been particularly successful, winning all of its games except one. The girls' team has also done well, winning several games and finishing in a respectable position.

The trophy won by the boys' team is a very valuable one, and it is a great honor for them to have won it. The trophy will be kept by the league for a year, and then it will be presented to the team that wins the championship in the following season.

At the close of the play chairs were pushed back and dancing commenced. The music was furnished by "The Rainbow Band" of Mortier and for a while the floor was heavily crowded.

Another feature of the evening was the selling of a banner which had been donated to the Institute by M. - Douglas Avery the proceeds to go towards the Country Club. Tickets were sold at the cash price when the bank number was drawn from the hat. Mrs. W. L. Fernald held the \$5.00. Another ticket was sold at \$10.00 in the bid.

The young folks of the high school gave Miss Mary Jane McCormick a surprise party Saturday evening in honor of her sixteenth birthday.

They had a merry time till 12 o'clock when the guests departed. Miss McCormick was home Sunday.

What a wonderful age we are living in. In fact, to be able to hear the opening address of the Peace Conference at Geneva, Switzerland, by the Rev. Arthur Henderson on Tuesday, June 10, is to be able to hear the voice of the Father of the Peace Movement in the world. It is a wonderful age in which to live. It is a wonderful age in which to be a Christian. It is a wonderful age in which to be a citizen of the world.

Mr. John and Mr. Ray Harrison are on the stock list.

Considering the inclement weather last week the dance was well attended.

It would have been a much more enjoyable evening if those who thought they must bring a bottle had stayed at home.

1932

Some things are FACTS! Some things can't be denied. Some things are sure, certain and altogether sane. And here is one of those things:

the year 1932 is not going to dump any sudden wealth into your lap!

THOSE WHO MAKE MONEY from business in 1932 are going to EARN IT—not by playing a hunch, not by following tips, and not by sitting tight. To make money in 1932 YOU HAVE GOT TO SELL MERCHANDISE. And you've got to sell a lot of it. That's another fact!

Selling will NOT be easy. But the present year can be a GOOD year for you; a PROFITABLE year; a year of PROGRESS. But it's going to take STRAIGHT-FROM-THE-SHOULDER selling!

WE'VE GOT TO HIT THE LINE HARD! It doesn't take the seventh son of a seventh son to figure out that business is not coming without REAL effort. But there is always some business for those who have the energy and courage to GO AFTER IT! This is old stuff—but TRUE as HOLY WRIT.

Here and more people are coming to regulate their shopping by the store ads. Here and more people are getting out of the habit of going to "the nearest place" to the place they have usually visited for certain purchases.

More and more people are coming to decide things from reading the store ads—and depend upon the ads and the claims contained in the ads, for guidance in planning purchases.

More the coming month than ever before will your advertising be the best by which all the shall stand or fall—on it literally, plain as it was saying.

The people of the extensive district in which The Independent circulation cannot be as effective or as economically reached by any other medium or method of advertising as by the columns of this paper.

The men hands of our town in Alberta have the facilities of reaching the residents of the district they were used to those provided by the extensive circulation of The Independent.

THE Merchant is a Maker as Well as a Publisher of "News"

Every Good Store is a News-Centre.

A merchant's space in this newspaper is his own Newspaper, through which he publishes the things concerning his store which, in his view, constitute his chief "store news"

The readers of this newspaper accept his advertisement as the record of his store week by week, not only of the things he is doing, but of the things he is preparing to do.

In this important regard the merchant has an advantage, in the publication of his newspaper, over the publisher of the paper which carries his news for him. For the publisher may print the news that has happened—no more; while the merchant CREATES and prepares the happenings which his newspaper advertising describes.

He may make these store-happenings a series of routine advertisements, or he may make them a series of surprises.

His advertising may be thus made merely serviceable to the readers of this newspaper, or it may be made deeply interesting, and a continued source of enterprise, of active, alert and interesting public service.

A good store is one of the most interesting of human institutions; and the advertising of a good store should be made to reach with the most interesting of reading matter.

And while the "happenings" in a good store are all ordered, so far as

they relate to sales and special promotion of particular kinds of goods, there are other store-events which rather form themselves upon the merchant.

The unexpected may happen so to make a store special line of unusual goods—the merchant may be sales in a larger supply of stock than he can carry. Thus he is forced to make "something happen." He arranges a special sale, makes unusual price concessions, and the event is NEWS to every patron or prospective patron of his store.

The alive merchant realizes that he must use to it that his store is a store of events, whose things happen—and to make the profitable advertising of such a store a reality is as easy task.

The people of the extensive district in which the Independent circulates cannot be as effectively or as economically reached by any other medium or method for advertising as by the columns of this newspaper.

The merchants of no other town in Alberta have the facilities of reaching the residents of the district they serve equal to those provided by the extensive circulation of the Independent.

If you want to reach the people, use the Independent, Alberta's Leading Weekly.

SELDOM ARE SUBSTITUTES EQUAL IN QUALITY

INSIST UPON BRANDED, trade-marked and advertised merchandise. Do not accept substitutes for what you name. Long experience has shown that goods which are widely and steadily advertised in the newspapers are the ones that are worthy of your faith.

Here is a
Message to
all
Shoppers
of both sexes
and varying
Incomes.

Modern newspaper advertising does you a great service; it permits you to accept, without fear, goods you have never tested. What others have believed in and accepted you also may buy with confidence.

Advertisers must be, and remain, honest if they want to be successful in business. Their announcements bear their signature. They tell the truth to protect themselves as well as to safeguard you.

A newspaper advertisement is a publicly printed bond between advertising merchants and the buying public. It is the strongest guarantee for goods of honest quality at fair and competitive prices.

Thrifty shoppers will buy advertised goods and refuse to accept any substitutes.

SELDOM ARE SUBSTITUTES EQUAL IN QUALITY

Here is a
Message to
all
Shoppers
of both sexes
and varying
incomes.

INSIST UPON BRANDED, trade-marked and advertised merchandise. Do not accept substitutes for what you name. Long experience has shown that goods which are widely and steadily advertised in the newspapers are the ones that are worthy of your faith.

Modern newspaper advertising does you a great service; it permits you to accept, without fear, goods you have never tested. What others have believed in and accepted you also may buy with confidence.

Advertisers must be, and remain, honest if they want to be successful in business. Their announcements bear their signature. They tell the truth to protect themselves as well as to safeguard you.

A newspaper advertisement is a publicly printed bond between advertising merchants and the buying public. It is the strongest guarantee for goods of honest quality at fair and competitive prices.

Thrifty shoppers will buy advertised goods and refuse to accept any substitutes.

The Palm Western

Corn Harvesting

During the month of 1931 a severe infestation of palm weevils ravaged the corn harvest of Alberta and Saskatchewan. A severe, early and extensive outbreak was predicted for 1932 with the following statement that should be given to the grower.

The infestation for 1932 has been estimated to some extent by the increase in two other crops of corn, namely, the "early" and "late" crops.

Both these crops have been and are being harvested and the harvest is partially complete.

The finding of these half-grown weevils in the corn, has many farmers to think that the weevils are not yet harvested.

This is not the case but the recent rains have caused the weevils to begin hatching and these have not yet appeared.

During the last few weeks the numbers will increase as the season continues to hatch.

The palm weevils are not a pest of the corn crop but are a pest of the corn crop.

Use the six Goodies. One of various sizes, types and ply thicknesses are larger than the others. Then estimate the number of cards in each of these sizes, find a total, and divide by six to obtain the average. You may measure, say, a mixture of two and find inferior also on display. Subtract the estimate of the inferior from the total and divide by five to find the other average. You must learn to think quickly.

If You're Not Reading The Independent

Send
a Dollar - -

And we will send the Stettin Independent every week for the next six months.

The Independent is a good clean, live paper, brim full of news, all home print covering Stettin district. It also has one of the largest circulations of any weekly in the province.

Its editorials are independent, fair, informing and progressive. It endeavors to concentrate on the news and views of the district as fully as possible.

Regular news is published from the following centres: Gadsby, Botha, Halkirk, Brinkley, Nevis, Union Hall, Kanata, Penn, Red Willow, Eastleng, Brynmor and Stettin. Farm and sporting news will be a speciality during the summer months, and correspondents will keep the public fully informed about crop prospects, holiday celebrations, baseball, tennis, golf, basketball, soft ball and all other summer recreations.

You will find it pays--and pays big--to read the advertisements in the Independent every week. You can save more than the price of a yearly subscription every week by taking full advantage of the many money-saving opportunities offered in the ads. Unusual values are offered every week in the columns of the Independent.

Slip on that dollar right now. You'll find it a mighty good investment. Use the coupon below.

The Stettin Independent,
Stettin, Alberta.

Dear Sir:-

Enclosed find the sum of \$1.00 for which you will please send me the Stettin Independent every week for the next six months.

But stop! Before you make judgments, look at facts.

It is economy, so far as you are concerned, to have manufacturers develop a huge demand for their product, by the agency of press advertising. You pay for the advertising, of course, but you pay a smaller price for the advertised article than would be necessary if the manufacturers' output were smaller.

Advertised articles have to be better than non-advertised articles, and since they are made in larger quantities, they can be made and sold at least as cheaply as imitative non-advertised articles.

If you are a thrifty and wise buyer, you will buy the article made known to you by faithfully-maintained press advertising. The stranger product should be shunned.

Be very friendly, therefore, to nationally-advertised products—foods, toilet aids, motor cars, radio sets, and all else—which are also locally advertised—in this paper.

DOES ADVERTISING RAISE PRICES?

When you hear of a manufacturer who spends \$100,000 or more each year on advertising, you may feel like saying—"Terrible! What waste and it is we—the public—who have to pay for it all!"

But stop! Before you make judgments, look at facts.

Manufacturers who advertise spend from 2 to 5 per cent. of their sales on advertising. Let us put it at 3 per cent. of the price which you pay for their article of sale. So if you pay 25 cents for an advertised article, you are paying three-fourths of one cent to pay for making it known and wanted by you. The price would not be less—indeed, it might easily be more—if the article had no money spent on it to make it known to and wanted by you.

It is economy, so far as you are concerned, to have manufacturers develop a huge demand for their product, by the agency of press advertising. You pay for the advertising, of course, but you pay a smaller price for the advertised article than would be necessary if the manufacturers output were smaller.

Advertised articles have to be better than non-advertised articles, and since they are made in larger quantities, they can be made and sold at least as cheaply as imitative non-advertised articles.

If you are a thrifty and wise buyer, you will buy the article made known to you by faithfully-maintained press advertising. The stranger product should be shunned.

Be very friendly, therefore, to nationally-advertised products—foods, toilet aids, motor cars, radio sets, and all else—which are also locally advertised—in this paper.

YOU CAN'T BE DISCONTENTED

That man or woman who is completely contented is in a sorry state. Every man, woman and child should have aspirations—desires for something higher and better than is now possessed. It is Godlike to be contented.

Poverty of mind and state is a manifestation of contentment.

Laborers, if they were properly discontented, would raise the character and quality of their work, and would receive higher pay.

Men and women in industrial jobs, doing manual or clerical work, are unlikely to receive promotion if they exhibit contentment.

Things beyond us are made known to us by and in advertisements. Advertisers draw in front of us electric refrigerators, electric labor-saving domestic machines, personal charm and beauty, the pleasure of travel, fine furniture and furnishings, the view and benefits of better health, cultural occupations and recreations, higher-grade employment and the ways and means by which we can make our time and labor give us more money and more leisure.

Advertisements are designed to stir us out of inertia content by putting before us new objects of the imagination. These pictures create longings in us and impel us along a way of broadening themselves into purpose, ambition and resolution.

Not the news, not the stories, not the information, not the entertaining and educational articles, contained in newspapers and magazines are the pushers of us toward something better and higher; it is the ADVERTISEMENTS in them. They are urgent and narrow-purposed, and vivid. They are deliberately devised to make us do something.

Perhaps contentment is permissible in those who have reached their 70th birthday, but those younger than 70 who say they are completely content merely say that they have collapsed mentally and physically.

Ideals change, desires change, objectives change, but never should any of us be contented. And we'll never be contented if we keep reading advertisements.

Pictureful, pressural advertisements! Let us all be grateful for and to them.

Advertisements Are the Foes of Contented Men and Women

LEO CLEANINGS

Miss Jeanne Fraser of Plumber Creek, has been engaged by the Gough Lake School Board.

K. W. Smith and family took to the road today. Mrs. Bert is evidently taking a little more interest in the sporting element of the community.

Locky and family returned from their holidays and reports a good time.

Clay Swenden and Jim Millers drove over to Seymour for the ball tournament.

Mr and Mrs. Bert Sinden leave for London, England for about a month.

Miss Alice and Beate Crawford of the Plumber Creek school are on their way to the annual picnic at Gough Lake.

Would you leave her to a Lifetime of Labor?

For instance, a man at age 35 pays only \$15.00 each year for \$100.00 of life insurance. He can carry more than \$100.00 of life insurance for the same price. A small price for the largest amount of life insurance you can purchase at so low a cost.

and the actual rate was 15 1/2 cents based on the regulation. In 1939 the regulation was amended to raise the tax rate also 15 1/2 cents, clearly based on the regulation, because the regulation was already slightly larger than in 1938 without regard to tax revenue.

There is no criticism of the Twers Council implied in this discussion. The Council went about as far as it could go in reducing its own pay.

Of course one should discuss the situation as we understand it. The hamper's Zang on bar.

Then he went Major another letter with the instructions. Major was also extremely loaded with money. One up his river, he was the of a tall pine tree, he was the signal where Thurman had to go.

From various points for twenty miles up and down the Mississippi, a hundred droppers were arranged. Major's plane had been arranged with Sgt. Clark to drop

HERE'S A GAME

For all the Family (or Your Guests)

Some night, when the family is complete, or when you are giving a party, ask everybody to give answers to these questions:

- | | |
|---|---|
| <p>1. What product would you use for gargling, to kill throat and mouth germs?</p> <p>2. What brand of cheese is best known to you?</p> <p>3. "French cooks rarely allow water to touch their stoves, and prefer cold cream for cleaning." What cold cream is said to be the parent and best for skin-cleaning?</p> <p>4. It is said that Canadian women are better than American women at all cleaning and dishwashing. What white soap you use most?</p> <p>5. If you wished to enter your horse into the Derby, what preparation is available for such a purpose?</p> <p>6. There's a certain fish we give a nickname which we're pumping fast nor sleeping chance can ever. What is its name?</p> | <p>7. What toothpaste leaves its appeal for me on its delicious ability to remove the film which forms on teeth?</p> <p>8. "No matter how much business you have to do, you can easily avoid the embarrassment of domestic hands" — say the half-century-old makers of a skin cream. What cream is it?</p> <p>9. A certain advertiser says that if you are constantly tired and overworked, Peppermint Pattens are the answer. What is the reason for this? What is the reason for this?</p> <p>10. After 30 years of experience in hair-cutting, a good hairdresser says that "Your good hair is the most important part of making the hair." What is the reason for this?</p> <p>11. There's a certain fish we give a nickname which we're pumping fast nor sleeping chance can ever. What is its name?</p> |

You can make your own questions—by studying the advertisements in this and other newspapers.

Write out the questions, and pin the sheet of paper on the wall. Offer a small prize to the one who gives the most correct answers inside thirty minutes.

Or ask each member of the family, or each guest, to provide a question, for inclusion on the "examination paper."

You'll have an evening with lots of merriment—and some useful instruction—in it.

CANADA'S SNOW WHITE

Canada is represented
one different lines of
food products at the Brit-
ish, annual exhibition
held in that city on Sep-
tember 10 for a period of four
days.

Information received by
the Department of Trade and
Commerce indicates that the
exhibition is doing better
than last year by Canadian
products in former years.

In addition to displaying
dian food products, Canadian
tobacco and cigarettes, Cana-
dian timber and Canadian
products are also being exhib-
ited.
Coincident with the hold-
ing of the exhibition the Canadian
government exhibition com-
mission has arranged for a number
of leading grocery stores in
Ottawa to make special window
displays of Canadian food
products.

ENGLAND LIKES B. C. CHEESE

Ottawa.—Arrival of an
important shipment of cheese
from England from Western Can-
ada. A new machine has been
developed for the purpose of

The shipment arrived at 10:30 a. m. and was put in storage in perfect condition, being just at a time when the British crop of black currants has been hard hit by heavy frost, with consequent curtailing of production on the trees. A break which should go a long way toward establishing a permanent new outlet for this fruit.

OXONE IMPROVES QUALITY

A rather interesting item appeared in the August issue of the *Storage Milk* magazine of the Wisconsin Dairy and Cold Storage Branch as follows:—“Weed, Dr. Arthur W. Weed, each studies are in progress at the Vegetable Conservation stores at Nahlem near Berlin at Kassau, near Frankfurt

upon the influence of temperature and humidity and Ozone concentration upon the storage and transport of all types of fruits and vegetables. Ozone has been found not only to prolong the storage life of fruits and vegetables, but, in the case of certain fruits to also improve the quality.

SOME FACTS ABOUT FARM

From the current issue of "Economic Annalist" official publication of the Agricultural Economics Branch, the following facts are taken:—From a recent study of the Dominion Bureau of Statistics we learn that there were 31,366 automobiles on the 7th of January in Canada, about 7,000 more than firms reported more than a year ago. There were 48,492 cars in 1936, 136,964 in 1937.

SAVING THE WET WHEAT

Artificial drying of wheat in Canada has now been practically perfected by the National Research Council's Associate Committee on Grain Research. Losses of ranging from 28.6 to 50.8 per cent and cash deductions totalling tens of dollars were sustained by Canadian farmers in recent years through tough and damp grain. The latter may be dried with little damage to its milling and baking quality through the efficiency of commercial driers. Experience work is being extended to include processes for the drying of barley and other coarse grains.

BREEDING FOR TWO

APPROXIMATE

Data compiled at the Dominion Experimental Station, Lacombe, Alberta, show that it requires an average, approximately one bushel of grain to carry a sow raising one litter per year through two months period. It requires on average 3300 pounds to carry one sow raising two litters for the same length of time. This includes feed for the young pigs to weaning time at eight weeks of age. Taking the average size of litters produced as seven, it can be seen that with the one sow raising one litter per year it takes 330 pounds of grain mixture to produce a weanling pig. When two litters are farrowed near the end of the year, the

ture feed is reduced to 166 pounds at weaning. To put it in another way if the grain mixture fed is worth one cent per pound the seed cost of the first pig at weaning time will be \$3.36 while that of the other pig will be \$1.66. The calculation does not take into consideration service fee, the labor cost of caring for the pigs, the interest on the investment and the depreciation.

In order to raise two litters of pigs a year successfully it is necessary to arrange the farrowing dates in the spring and the fall so that the pigs while young will not be subjected to severe weather conditions. Fall pigs should not

Skycrappers of the Future

The creation of a skyscraper is a complex operation. It is a process that involves the coordination of many different factors, from the selection of the site to the final construction of the building. The process is one that requires a great deal of planning and organization, and it is one that is constantly evolving as new technologies and materials are developed.

One of the most important factors in the construction of a skyscraper is the selection of the site. The site must be suitable for the construction of a tall building, and it must be accessible to the public. The site must also be suitable for the construction of a building that will be a landmark in the city.

Once the site has been selected, the next step is to obtain the necessary permits and approvals. This process can be a lengthy one, and it is one that requires a great deal of effort and expense. Once the permits have been obtained, the construction of the building can begin.

The construction of a skyscraper is a process that involves the use of many different materials and techniques. The materials used must be strong enough to support the weight of the building, and the techniques used must be able to construct a building that is so tall.

One of the most important techniques used in the construction of a skyscraper is the use of a steel frame. This frame provides the structure for the building, and it is one that is essential for the construction of a tall building.

The construction of a skyscraper is a process that is constantly evolving. As new technologies and materials are developed, the possibilities for the construction of taller and more complex buildings are increased. The future of skyscrapers is bright, and it is one that is full of promise.

These structures will have a great deal of impact on the city. They will be a landmark in the city, and they will be a source of pride for the people who live there. They will also be a source of employment for many people, and they will be a source of revenue for the city.

HERE'S A GAME

For all the Family (or Your Guests)

Some night, when the family is complete, or when you are giving a party, ask everybody to give answers to these questions:

- | | | | |
|--|----------------|---|----------------|
| Question | Fill in Answer | Question | Fill in Answer |
| 1. What product would you use for gargling, to kill throat and mouth germs? | | 7. What ingredients house it spread for use on its delectable ability to remove the film which forms on teeth? | |
| 2. What brand of clover is least known to you? | | 8. "No matter how much housework you have to do, you can easily avoid the embarrassment of 'housewife hands'—no say the half-century-old makers of a thin cream. What cream is it? | |
| 3. "French women rarely allow water to touch their skin, but prefer cold cream for cleansing." What cold cream is said to be the parent and best for skin-softening? | | 9. A certain advertiser says that when you are constipated, try (find and overcoat). Fatigue Poisons accumulate in your system. He makes a deterring reward which fulfills fatigue poisons. What is the name of this beverage? | |
| 4. It is said that "Canadian women are using more white soap for all cleaning and disinfecting." What white soap was named? | | 10. After 30 years of experience in hair-curling, a most perfect says that "Four great improvements came dramatically from a new method of curling the hair."—Improvements in (1) flavor, (2) tender quality, (3) softness of color, and (4) firmness. The new way is called "Overcoat." What name is "Overcoat"? | |
| 5. If you wished to make your finger nails to match the color of your gown, what preparation is available for such a purpose? | | | |
| 6. There's a certain flow that gives a surface which neither pounding feet nor screeching chairs can mar. What is its name? | | | |

You can make your own questions—by studying the advertisements in this and other newspapers.

Write out the questions, and pin the sheet of paper on the wall. Offer a small prize to the one who gives the most correct answers inside thirty minutes.

Or ask each member of the family, or each guest, to provide a question, for inclusion on the "examination paper."

You'll have an evening with lots of merriment—and some useful instruction—in it.

HERE'S A GAME

For all the Family (or Your Guests)

Some night, when the family is complete, or when you are giving a party, ask everybody to give answers to these questions:

1. What product would you use for anything, to kill throat and cold germs?
2. What kind of cheese is best known to you?
3. "Fresh women rarely allow water to touch their hair, but prefer cold cream for 'chignon.' What cold cream is the most famous?"
4. It is said that Canadian women are using more white soap for all cleaning and disinfecting. What white soap was named?
5. If you wished to color your hair, make to match the color of your gown, what preparation is available for such a purpose?
6. There's a certain fine wax which is used for the purpose of making a surface which will prevent fading, but not cracking. What is its name?
7. What household have the most of its declared ability to remove the dirt from floors and walls?
8. "No matter how much longer you have to live, you can easily avoid the entire ruin of domestic hands"—say the half-century old makers of a celebrated "What cream is it?"
9. A certain advertiser says that when you are constantly tired and overworked, Pathe's Poloma accumulates in your system. He makes drinking cereal which fights fatigue poisons. What is the name of this beverage?
10. After 20 years of experience in hair-curing, a most famous hair expert has improved the hair-curing process. What is the name of this hair-curing process?
11. There's a certain fine wax which is used for the purpose of making a surface which will prevent fading, but not cracking. What is its name?

You can make your own questions—by studying the advertisements in this and other newspapers.

Write out the questions, and pin the sheet of paper on the wall. Offer a small prize to the one who gives the most correct answers inside thirty minutes.

Or ask each member of the family, or each guest, to provide a question, for inclusion on the "examination paper."

You'll have an evening with lots of merriment—and some useful instruction—in it.

Polly Thompson of English, two members of English, and members of English, English, and English, will exhibit their dolls during the contest. The girls entered the contest last night.

By listening to programs repeated with logic, loyalty and repetition.

Chaustatou brings to a community something that is uniquely his own. It is not a conventional system like a clinic, reviving system and operating around the problems of the community.

Chaustatou never is pessimistic and never looks on the dark side of things. The very reason Chaustatou is that men and women, boys and girls have a right to live in a better world, and prosper, and that it is the duty of all of us to help others. Lectures on Chaustatou's philosophy do their best to inspire their hearers, to help make the community healthy, to make the world a better place, to make a brighter. Perhaps there are

HERE'S A GAME

For all the Family (or Your Guests)

Some night, when the family is complete, or when you are giving a party, ask everybody to give answers to these questions:

- | Question | FM in Answer | Question | FM in Answer |
|--|--------------|---|--------------|
| 1. What people would you say for giving, to him throat and much more? | | 7. What ingredients have the appeal for you on the deck of ability to remove the film which forms on teeth? | |
| 2. What brand of cheese is best known to you? | | 8. "No matter how much ham-work you have to do, you can easily avoid the unpleasantness of General's ham." | |
| 3. "French women rarely allow water to touch their skin, but prefer cold cream for cleansing." What cold cream is said to be the purest and best for skin-cleansing? | | 9. A certain advertiser says that when you are constantly tired and overworked, Plague Pills accumulate in your system. He makes a drinking record which fights fatigue poisons. What is the name of this beverage? | |
| 4. It is said that Canadian women are using more white soap for all cleaning and dishwashing. What white soap was named? | | 10. After 30 years of experience in hair-caring, a most popular says that "Your great improvement came dramatically from a new method of making the hair." | |
| 5. If you wished to color your finger nails to match the color of your gown, what preparation is available for such a purpose? | | | |
| 6. There's a certain floor mat giving a surface which will not scarping chairs can mar. What is its name? | | | |

You can make your own questions—by studying the advertisements in this and other newspapers.

Write out the questions, and pin the sheet of paper on the wall. Offer a small prize to the one who gives the most correct answers inside thirty minutes.

Or ask each member of the family, or each guest, to provide a question, for inclusion on the "examination paper."

You'll have an evening with lots of merriment—and some useful instruction—in it.

HERE'S A GAME

For all the Family (or Your Guests)

Some night, when the family is complete, or when you are giving a party, ask everybody to give answers to these questions:

- | Question | For the Answer | Question | For the Answer |
|--|----------------|--|----------------|
| 1. What product would you use for gargling, to kill throat and mouth germs? | | 7. What toothpaste brand do you use for its ability to remove the film which forms on teeth? | |
| 2. What brand of cheese is best known to you? | | 8. "No matter how much ham-corn you have to do, you can easily avoid the unpleasantness of ham-corn." — say the half-century-old makers of a salt cream. What cream is it? | |
| 3. "French women rarely allow water to touch their skin, but prefer cold cream for cleansing." What cold cream is said to be the parrot and best for skin-cleansing? | | 9. A certain advertiser says that when you are constantly tired and overworked, Fatigue Poisons accumulate in your system. He makes a striking claim which might fatigue poisons. What is the name of this beverage? | |
| 4. It is said that Canadian women are using more white soap for all cleaning and dishwashing. What white soap was named? | | 10. After 30 years of experience in ham-corn, a meat packer says that "Your guest improvements can decrease drastically from a new method of making the ham." — improvements in (1) flavor, (2) tender quality, (3) pinkness of color, and (4) firmness. "The new way is called 'Oven-dried.'" What ham is "oven-dried"? | |
| 5. If you wished to color your hair, what is the color of your own, what preparation is available for such a purpose? | | | |
| 6. There's a certain flaw that gives a surface which neither ponding foot nor ordinary chairs can see. What is its name? | | | |

You can make your own questions—by studying the advertisements in this and other newspapers.

Write out the questions, and pin the sheet of paper on the wall. Offer a small prize to the one who gives the most correct answers inside thirty minutes.

Or ask each member of the family, or each guest, to provide a question, for inclusion on the "examination paper."

You'll have an evening with lots of merriment—and some useful instruction—in it.

About Readers and Writers of Advertisements

It's a very old story—the story of the man who put in a great daily newspaper an inconspicuous 2-line advertisement as follows:

CATS WANTED—\$1.00 each, before 9 a.m. 16 Major street.

He put in this advertisement to prove to a doubting friend that the public reads advertisements.

You can imagine the doubter's consternation when he saw next morning a streetful of men, women and children, each with a cat.

WHATEVER you yourself may do, in regard to the reading of advertisements, know this: Every thing printed in a newspaper gets read, and there are many who read every line—news matter and advertisements—thus with lots of time and curiosity.

The company or firm with something to sell—something which thousands of persons can buy—wonder if it is very easy if it is published on some apert advertisement. The right thing for it to do is to speak in an advertisement which everybody is likely to see.

The job is to make you—a terminal man or woman—see the advertisement and to make you see it in an advertisement. The right thing for it to do is to speak in an advertisement which everybody is likely to see.

If you want to know just how difficult is the job of writing an advertisement which would get 100 marks from a competent judge, try to write one—about a vacuum cleaner, a motor car, a writing ink, a child's shoe, or anything else, limiting yourself to 300 words or less.

OF COURSE, some advertisements—those of local retailers—may, quite properly, give prominence to prices. They, too, may be to draw you, rather than to inform you personally; and to stir you up to quick action.

The writing, designing and illustrating of advertisements intended to capture attention, intrigue interest, convey information, be convincing, breed desire for what is advertised, and induce the reader to purchase are highly specialized jobs.

About Readers and Writers of Advertisements

It's a very old story—the story of the man who put in a great daily newspaper an inconspicuous 2-line advertisement as follows:

CATS WANTED—\$1.00 each, before 9 a.m. 16 Major street.

He put in this advertisement to prove to a doubting friend that the public reads advertisements.

You can imagine the doubter's consternation when he saw next morning a streetful of men, women and children, each with a cat.

WHAT FOR? you yourself may do, or wish to be reading of advertisements, know that everything printed in a newspaper gets read, and there are many who read every line—more matter and advertisements—than with lots of time and curiosity.

The company or firm with something to sell—something which thousands of persons can buy—wouldn't be very wise if it published an inconspicuous advertisement. The right thing for it to do is to make it so on your attention, by publishing an advertisement which everybody is likely to see.

It's job is to make you a normal man or woman—see its advertisement and to make it so interesting that you'll read it. Then the advertisement must be persuasive. Ah, it should invite you to take action.

If you want to know just how difficult is the job of writing an advertisement which would get 100 marks from a competent judge, try to write one—about a vacuum cleaner, a motor car, a writing ink, a child's shoe, or anything else, limiting yourself to 300 words or less.

The writing, designing and illustrating of advertisements intended to capture attention, intrigue interest, convey information, be convincing, lead desire for what is advertised, and invite the reader to purchase are highly specialized jobs.

About Readers and Writers of Advertisements

It's a very old story—the story of the man who put in a great daily newspaper an inconspicuous 2-line advertisement as follows:

CATS WANTED—\$1.00 each, before 9 a.m. 16 Major street.

He put in this advertisement to prove to a doubting friend that the public reads advertisements.

You can imagine the doubter's consternation when he saw next morning a streetful of men, women and children, each with a cat.

WHATEVER you yourself may do, in regard to the reading of advertisements, know this: Everything printed in a newspaper gets read, and there are only who read every line—news matter and advertisements—close with lots of time and curiosity.

The company or firm with something to sell—something which thousands of persons can buy—wouldn't be very wise if it published an inconspicuous advertisement. The right thing for it to do is to crash in on your attention, by publishing an advertisement which everybody is likely to see.

OF COURSE, some advertisements—those of local retailers—may, quite properly, give prominence to prices. They do this to attract you, rather than to inform or persuade you; and to stir you up to quick action.

The writing, designing and illustrating of advertisements intended to capture attention, intrigue interest, convey information, be convincing, breed desire for what is advertised, and induce the reader to purchase are highly specialized jobs.

If you want to know just how difficult is the job of writing an advertisement which would get 100 marks from a competent judge, try to write one—about a vacuum cleaner, a motor car, a writing ink, a child's shoe, or anything else, limiting yourself to 300 words or less.

GAS CONSERVATION CAMPAIGN

Gas production peaks for Turkey Valley companies have been met by the Alberta Gas Conservation Board formed by the government to derive a plan for the curtailment of production in the Valley with a view to preserving the field's life. The Board has ordered a gas production cut of 10 per cent for the next 30,000,000 cubic feet daily and has set the daily quota for each company. The companies have agreed to limit production until a decision is reached by a public meeting of the nation to be held in January. The companies have agreed to cut production until the end of February until the rate to achieve a reasonably peak gas under production will be reduced to 10 per cent of the original rate. The companies will preserve a 10 per cent cushion.

When this cut is made, the companies do not intend to cut off their. There are fewer in them than we think.

There are more than 100 companies that remain in the Valley. 10 to 20 per cent of the total production is now being produced.

Would You Like To Be Blind?

Imagine yourself to be blind, and being asked to buy a motor car, or silverware, or clothing, or a pair of shoes, or a clock, or a refrigerator, or a suite of furniture. Imagine yourself to be set down in a main street with stores on both sides of it, and being bidden to purchase the thing or things on your shopping list.

Being blind, you would not know what store or stores to enter, and even if you did find yourself in the right class of store, you wouldn't be able to select intelligently what you were bidden buy. You wouldn't know anything about values.

It would be cruel to send a blind person to do selective buying. You would be like a blind person, when you start out to buy things, if there were no advertisements in the newspapers and magazines which you read.

Advertisements are like roadmaps. They enable you to see in your home what is in stores, what stores have, what you plan to buy; also, they give descriptions, tell you prices, and answer many of your questions.

Pre-information on your home—short goods, of course, you can shop intelligently—leaves plenty of supply, and you know how to examine the wanted article, and what to pay for it.

Advertisements save your time, and safeguard you against the danger of mischoice.

What is advertised regularly is trustworthy, and is good value.

Be guided by advertisements when you plan to spend money for things to wear, to eat to give your home easements and comforts, to save your time, to increase the output of your own labor, or of your soil or flocks or herds or orchards; or to protect your life, your health, your property or money.

What advertisers do and spend in this and in other newspapers to get your attention and favor should have your warm approval, for what may be expense to them represents economy to you.

TOWN OF STETTLE

The Town of Stettler was founded in the fall of 1904, and its growth has been rapid. It is now one of the largest and most important towns in the province. The town is situated on the main line of the Canadian Pacific Railway, and is the center of a large agricultural and commercial district. The town is well supplied with all the necessities of life, and is a pleasant place in which to live.

Round the Country

The grandest of all things is a horse. It is the only animal that can be trained to do anything. It is the only animal that can be trained to do anything. It is the only animal that can be trained to do anything.

The Emperor Of America

Continued from Page 10, New York, in Magazine Dept.

Across plains and mountains from a far Missouri town, a horseman has been crowned the Emperor of America. He is the only animal that can be trained to do anything. It is the only animal that can be trained to do anything. It is the only animal that can be trained to do anything.

A Ride To Death On A Flying Bomb

FLAX GROWING CONTINUES

Canada and the Irish Free State are the only flax countries left in the world but the United Kingdom producing flax in any appreciable quantity. Production of the United Kingdom comes mainly from the Ulster flax grown in the counties of Ulster, Ireland, and in subseas in this it is interesting to note the fact that the flax has been grown for the first time in the county of Wick in Ireland by the Fibre Division of the Dominion Experimental Station at the Ance de P. in the province of Quebec in Russia and Poland. The flax is a very hardy plant and can be grown in a considerable number of places. It is grown primarily for the seed, from which the oil is extracted and the residue is used as a substitute for other edible oils. On a poor grade of flax there is obtainable under such conditions

the standards of raising are

"I Keep Prayed Up"

Two parsons (so the story goes) attending a Conference, had beds in the same room.

One was a YOUNG man--the other was OLD.

They began their devotions simultaneously but the old man was off his knees and into bed in a twinkling.

The younger man's prayer was long. When he rose, he felt called on to cede the older man for the brevity of his prayer.

The old man's reply was both blunt and rebuking:

"I keep prayed up, young man, I keep prayed up"

THERE'S A POINT in this story for those who employ advertising to sell their goods and services. It is: Keep continual contact, by the agency of published advertising, with those from whom you want business.

Many salesmen have long periods of idleness. Then, when business is lost they may have been advertising, knowing that there will be immediate and constant attention on the part of those addressed.

Buyers are attentive and responsive to those who maintain steady contact with them--with published advertising. To them they are friendly. When in the market for what the seller offers, to him they turn easily, expertly, confidently and respectfully.

The advertising which costs least--because of a minimum of paper and ink--is the most effective. Contrast, the advertising which costs most--because of a maximum of paper and ink--and you will see that it is the least effective. It costs most because it doesn't get the required exposure in the time best out.

There's Another Little Story About Prayer--a story with a point:

A small boy told his Sunday School teacher that he never said his prayers in the morning, but always at night. "And why not in the morning?" asked the teacher. "Why," said the small boy, "my father who's my good one look after himself in the day-time."

Many sellers are very much like this small boy; many are worse. Many advertise only when business begins to fall over their business. Many don't advertise at all.

The right time is, of course, to keep on distributing among buyers information about one's goods and services--all the time. Thus do the leaders.

THE "SALAD" TEA

"Tea from the Garden"

Notice To Subscribers!

The Independent has on its list a number of subscribers who have not paid anything on their paper during 1934 or even in 1935. We can well believe that the chief reason for this is that these subscribers were not sent out to pay the amount they were in full, and, therefore, did not make the attempt to pay anything on account.

At the list included subscribers who have taken the Independent many years, we felt that they were entitled to receive a statement on our part, and we have hastened for some months to take them off the list. The consequence of the situation made it imperative, however, that a statement of some kind be made, so we cannot carry along an inactive list.

On February 1st the Independent will be compelled to remove its subscription list and the names will be removed. It is regrettable that some subscribers who have been loyal for many years will be removed from the list. We are therefore making the following proposition to avoid subscribers during January--

1.—A payment of 10 cents will ensure getting the paper for March THREE MONTHS.

2.—A payment of \$1.00 will ensure the paper for another SIX MONTHS.

3.—A payment of \$2.00 will ensure the paper for Another YEAR.

THE 60 Minutes producers have been a decisive force in the past few years, and they're not about to let that momentum slip. "We've got a lot of ideas that we're going to put out there," says executive producer Les Moonves, "and we're going to make sure that we're not just building on the success of the past, but that we're also building on the success of the future."
